The secret powers of time

Do you often think about the past? Can you enjoy the present time, or do you worry about the future? The psychologist Professor Philip Zimbardo describes three types of people: past, present and future people.

What time type are you?

Past types
You enjoy remembering the past and sometimes you miss 'the good old days'. You worry about making changes or trying new things. You spend a lot of time with your family.

Present types
The most important thing is to feel good now. You like doing fun things with fun people. You don't have a healthy lifestyle. You avoid doing difficult or boring things.

Future types
You spend most of your time working, saving and planning for a better future. You eat well and exercise regularly. You can say 'no' to immediate pleasures. You don't mind waiting for the good things in life. Future people are usually more successful in work and study. But they often don't enjoy their free time because they are busy thinking about the next thing.

According to Zimbardo's research, most people are mainly a past, present or future type, although everybody is sometimes the other types. Ideally, we should try to have an equal balance of all three to be happy and successful, and to have good relationships.

'Take a photo of it and I'll look at it when I get home!'

THIS BLOG IS ANGRY!

So ... I'm in the Louvre Museum in Paris and I'm looking at one of the most famous paintings in the world, *Mona Lisa* by Leonardo da Vinci. But I can't actually see it very well, because there are two tourists standing in front of it, and they are taking photos of the painting. But wait ... no, it's not a photo ... it's a **film**. They're filming the painting! And then one stands next to the *Mona Lisa* as the other films her.

As they go off, one says, 'We'll post that on Facebook and have a **look** at it back at the hotel'. Another tourist arrives, looks at the painting for a second, takes a **photograph** of it and moves on.

But isn't the whole reason for going to the gallery to see the paintings 'live'? OK, you can look at them on the museum website. But seeing them actually in front of you is a different **experience**. That's why I went – to see the real thing. Why look at it on a tiny screen when the whole wonderful thing is there in front of you? But really these

tourists are not looking at the painting at all – they’re recording their own lives.

Now to a rock concert in London – it’s Muse, my favourite band. I’m close to the stage, but even so my view is blocked by a hundred mobile phones filming. And not just one song, the whole concert. These will be on YouTube within an hour – poor quality, terrible sound. Why do they do it? Why don’t they look at the band?

We don’t live our lives any more, we simply **record** them, **post** them on Facebook and look at them later.
